

OVERWORK INCIDENT TO "FLU" EPIDEMIC CAUSING THE DOCTORS TO COLLAPSE

HELENA, Oct. 21.—No signs of a lessening of the epidemic of influenza in Montana were apparent in reports to Secretary Cogswell of the state board of health.

Dr. Cogswell issued an appeal to the public, not to call physicians after 10 p. m. unless in cases of life and death, since many doctors have collapsed from overwork.
