

## "FLU" CLAIMS FOUR RESIDENTS OF FORSYTH

Special to the Billings Gazette.

FORSYTH, Oct. 21.—The first deaths resulting from Spanish influenza were reported in this city, last week, when John Wetsche and Joe Knoll, Russians, died after a brief illness. The young men resided in the west end of the city and their deaths occurred just 20 minutes apart. They were born in Russia and came to this country a few years ago with their parents. They had taken up claims about 25 miles north of the city and came into Forsyth to get employment for the winter. At the time of their deaths they were residing with their parents.
