

**1,000 Barrels of Cat Creek
Crude Oil**

MONTANA REFINING CO.

Has just closed contract whereby it has secured 1,000 barrels per day of the production from one of the finest leases in the wonderful CAT CREEK field.

First well on lease reported in excess of 2,500 barrels flush production.

Over 125,000 barrels of crude oil have been shipped out of CAT CREEK during this month.

This is the first of a series of important announcements which this company will make during the next few weeks—

Do You Recognize Its Importance to Billings

Those who are wise will not mistake the course of events. MONTANA is destined to be a great oil state. The men who get in on Montana's first refinery will be the ones to share in the profits of the safest and surest end of the oil industry.

WE HAVE THE PRODUCTION
