

## Club Hears Data On Irrigation

(Continued from Page 1.)

acres under cultivation and 125,000 persons living here. We haven't yet scratched the surface regarding irrigation and reclamation developments. West and north of Billings there will eventually be about a million and a half acres under irrigation," Mr. Brown predicted.

Major problem now he said was to pass legislation defining our water rights and providing for equitable distribution of the water between Montana and Wyoming in those cases where both states are dependent upon the same sources.

## Brown Details Irrigation Data For Commercial Club (continued)
