

Probe of Polio Epidemic Opens

(Continued From Page 1.)

were Dr. C. L. Heath, city milk and meat inspector, and Kenneth Chrysler, city engineer.

Dr. Gillian, who has recently been attached to the public health bureau at Atlanta for the control of malaria, worked in investigations of polio epidemic from 1934 to 1941. In mapping his probe here, he said that he expects to be in Billings for 10 days or two weeks.
