

**Trash-Littered Parks and Rotting Signposts Mar Once-Beautiful Rims**

**Once Majestic Rimrocks Fast Becoming Eyesore**

**By PAUL DENWARD**

Rimrocks, which were once the scenic crown of the Yellowstone National Park, are fast becoming eyesores. The scenic spots, which were once the pride of Yellowstone National Park, are being marred by the trash-littered parks and rotting signposts.

The scenic spots, which were once the pride of Yellowstone National Park, are being marred by the trash-littered parks and rotting signposts.

**Livestock Quota**

**By PAUL DENWARD**

Livestock quota for the state of Montana is being set by the state government. The quota will be based on the number of animals that can be sustained by the range.

**Four-headed rock in Yellowstone Park is inspected for amount of sulphur in heat. Like most other rocks of recent formation, it is about 100,000 years old.**

**Five-headed rock in Yellowstone Park is inspected for amount of sulphur in heat. Like most other rocks of recent formation, it is about 100,000 years old.**
