### Rim Residents Wonder: Do Rains Topple Rocks?

**By George Prokator**  
**Guest Staff Writer**

When it rains, it pours. It pours right over the rimrocks.

When rains come down on the rimrocks, they are a good deal of water. The water runs down the face of the rimrock, and the water runs down the face of the rimrock. The water runs down the face of the rimrock. The water runs down the face of the rimrock.

The water runs down the face of the rimrock. The water runs down the face of the rimrock. The water runs down the face of the rimrock. The water runs down the face of the rimrock.

The water runs down the face of the rimrock. The water runs down the face of the rimrock. The water runs down the face of the rimrock. The water runs down the face of the rimrock.

**Rainstorm Waterfall**  
Mrs. J. B. Dixon, who lives hereabouts, says that the water runs down the face of the rimrock, and the water runs down the face of the rimrock.

**Upper and Lower Falls**  
An overall view, top photo, reflects water for the upper and lower falls on Highway 2 atop the Rimrocks. Below Mrs. J. B. Dixon who shows in photo at right where the water has flowed over a waterfall may be silencing cracks and undermining

**Water Undermining Rocks**  
Mrs. J. B. Dixon, who lives hereabouts, says that the water runs down the face of the rimrock, and the water runs down the face of the rimrock.
