

## 40 Uranium Claims Filed

BASIN — Unconfirmed reports are that approximately 40 uranium claims filed north of Greybull are the first of some 1,000 expected to be staked out in the near future.

As nearly as can be determined at this time it is expected the field will lie about halfway between Greybull and Lovell and is apparently in Lovell and Byron school districts.

At present the stakes start north of the Wyo Ben Plant at Stucco and run nearly to the road leading to the new gypsum plant. Some of the claims overlap some Wyo Ben gypsum and benetomite claims.
