

BUILDING PERMITS

Although building permits totaling nearly \$10,000 were issued yesterday, the total of construction work for the month has been reduced by \$43,000 by an unforeseen circumstance, it was revealed at the city engineer's office. The actual total for the month is therefore about \$185,000.

The reduction came in the permit for the new state highway commission building which is being erected at the capitol. The original permit for this building, taken out before the contract was let, called for an expenditure of \$145,000. However, when the contract was let the general construction bid was only \$102,000. Accordingly the permit was reduced to this amount.

Yesterday's permits were issued to:

Bid Reduces Highway Building Cost by \$43,000
